*Editor's note--This appendix contains the Traffic Rules and Orders of the town which were promulgated by the board of survey on July 12, 1950 and approved by the Department of Public Works of the Commonwealth of Massachusetts as reflected in traffic regulation permit No. 4356 dated July 12, 1950. Amendments subsequent to July 12, 1950 have been worked into their proper place, and are indicated by history notes, giving the date of the rule and order and, in some cases, the permit number and the date of the permit. The absence of such a note indicates that the section was derived unchanged from the rules and orders approved on July 12, 1950.

The original format and numbering order have been retained but chapter and section numbers have been assigned at the discretion of the editor. Explanatory works and catch lines added by the editor are indicated by brackets [].

Cross references--Bicycles, Ch. 3; storage of unregistered vehicles, 6-1; streets and sidewalks and public grounds, Ch. 8; vehicles for hire, Ch. 9.

Sec. 1-42. Rotary traffic.

Within the areas set forth below vehicular traffic shall move only in a rotary counter-clockwise direction, except when otherwise directed by an officer:

Within the area bounded by Main and Northampton Streets.
ARTICLE VII. [OPERATION OF VEHICLES]

Sec. 1-43. Drive within marked lanes.

When any roadway has been divided into lanes a driver of a vehicle shall drive so as to be entirely within a single lane and shall not move from one lane in which he is driving until he has first ascertained if such movement can be made with safety.

Sec. 1-44. Overtake only when there is a space ahead.

The driver of a vehicle shall not overtake and pass a vehicle proceeding in the same direction unless there is sufficient clear space ahead on the right side of the roadway to permit the overtaking to be completed without hindering or impeding the safe operation of any vehicle ahead.

Sec. 1-45. Driver to give way to overtaking vehicle.

The driver of a vehicle when about to be overtaken and passed by another vehicle approaching from the rear shall give way to the right in favor of the overtaking vehicle, and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

Sec. 1-46. Obstructing traffic.

(a) No person shall drive in such a manner as to obstruct unnecessarily the normal movement of traffic upon any street or highway. Officers are hereby authorized to require any driver who fails to comply with this section to drive to the side of the roadway and wait until such traffic as has been delayed has passed.

(b) No driver shall enter an intersection or marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk and on the right half of the roadway to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians notwithstanding any traffic control signal indication to proceed.

Sec. 1-47. Following too closely.

The driver of a vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard to speed of such vehicle and the traffic upon and condition of the street or highway.

Sec. 1-48. Slow vehicles to stay 200 feet apart.

Upon roadways less than twenty-seven (27) feet wide and upon which vehicular traffic is permitted to operate in both directions the driver of any slow moving vehicle when traveling outside of a business or residential district shall not follow another slow moving vehicle within two-hundred (200) feet, but this shall not be construed to prevent such slow moving vehicle. This section shall not apply to funerals or other lawful processions.

Sec. 1-49. Care in starting, stopping, turning or backing.
The driver of any vehicle before starting, stopping, turning from a direct line or backing shall first see that such movement can be made in safety.

If the operator of another vehicle should be affected, by a stopping or turning movement, the driver of such other vehicle shall be given a plainly visible signal, as required by the following section.

Sec. 1-50. Stopping and turning signals.

(a) Any signal herein required shall be given sufficient time in advance of the movement indicated to give ample warning to any person who may be affected by said movement, and shall be given either by means of the hand and arm in the manner specified, except that when a vehicle is constructed or loaded as to prevent the hand and arm signal from being made or from being visible both to the front and rear, the signal shall be given by a suitable device.

(b) Hand and arm signals, as required herein shall be made as follows:

(1) An intention to stop shall be indicated by extending the arm horizontally to the left of and beyond the side of the vehicle.

(2) An intention to turn to the left shall be indicated by extending the arm horizontally to the left of and beyond the side of the vehicle, and by pointing to the left with the index finger.

(3) An intention to turn to the right shall be indicated by extending the arm horizontally to the left of and beyond the side of the vehicle, and by moving the hand in a circle.

Sec. 1-51. Obedience to traffic control signals.

The word "intersection," as used in this section, shall mean an intersection of one or more ways with another, any intersection of ways with a railroad, and any place along any way at which the drivers are intended to be controlled by traffic control signals.

Colors in traffic control signals shall have the commands ascribed to them in this section, and no other meanings, and every driver of a vehicle or other conveyance shall comply therewith, except when otherwise directed by a police officer or lawful traffic regulating sign, signal or device.

In no case shall a driver enter or proceed through an intersection without due regard to the safety of other persons within the intersection regardless of what indications may be given by traffic control signals.

(1) **Red:** Traffic facing a steady "circular red" signal alone shall stop at a clearly marked stop line, or if none before entering the cross walk on the near side of the intersection or if none then before entering the intersection and shall remain standing until an indication to proceed is shown except as allowed by Chapter 89, Section 8 of the General Laws.

No driver of a vehicle facing a "circular red" signal indication shall make a right turn where official traffic signs are installed and maintained prohibiting such turn at the following intersections:

Facing easterly traffic on Payson Avenue at Williston Avenue.
Facing southerly traffic on Union Street at Payson Avenue.
January 22, 2018

(2) **Yellow:** While the yellow lens is illuminated, waiting drivers shall not proceed and any driver approaching the intersection or a marked stop line, shall stop at such point unless so close to the intersection that a stop cannot be made in safety; provided, however, that if a right, left or vertical green arrow is illuminated at the same time, a driver may enter the intersection to make the movement permitted by the green arrow.

(3) **Green:** While the green lens is illuminated, drivers facing the signal may proceed, but shall yield the right-of-way to pedestrians and vehicles lawfully within a crosswalk or the intersection at the time such signal was exhibited. Drivers of vehicles making a right or left turn shall at all times yield the right-of-way to a pedestrian crossing with the flow of traffic.

(4) **Special green arrows:** When a special right, left or vertical green arrow is illuminated, drivers facing said signal may turn right or left or go straight ahead with the green arrow illuminated at the time, but shall yield the right-of-way to a pedestrian crossing with the flow of traffic and to other vehicles proceeding on green indication.

(5) **Red and yellow:** While the red and yellow lenses are illuminated together, drivers shall not enter the intersection, and during such time the intersection shall be reserved for the exclusive use of pedestrians.

(6) **Flashing red:** When a red lens is illuminated in a traffic-control signal by rapid intermittent flashes, and its use has been specifically authorized by the Department of Public Works, Commonwealth of Massachusetts, drivers shall stop before entering the nearer line or crosswalk of the street intersection, or at a stop line when marked, and the right to proceed shall then be governed by provisions of Chapter 89, Section 8 of the General Laws, (Ter. Ed.).

(7) **Flashing yellow:** A flashing yellow lens shall indicate the presence of a hazard and drivers may proceed only with caution.

(8) **Flashing green:** A flashing green lens shall indicate an intersection or pedestrian crosswalk in use or subject to use by entering or crossing traffic. Drivers may proceed only with caution and shall be prepared to comply with a change in the signal to a red or red and yellow indication.

(Traffic Rules/Orders 5-20-80, Appvd. by Permit No. B-3967, 6-12-80)

**Sec. 1-52. Emerging from alley or private driveway.**

The operator of a vehicle emerging from an alley, driveway or a garage shall stop such vehicle immediately prior to driving on to a sidewalk or on to the sidewalk area extending across alleyway or driveway.

**Sec. 1-53. Sound horn when necessary.**

The driver of a vehicle shall give an audible warning with his horn or other warning device whenever necessary to insure safe operation.

**Sec. 1-54. No driving on sidewalks.**

The driver of a vehicle shall not drive upon any sidewalk except at a permanent or temporary driveway without first obtaining permission of the Chief of Police.
Sec. 1-55. Obedience to isolated stop signs.

Every driver of a vehicle, railway car or other conveyance, approaching an intersection of ways where there exists facing him an official sign bearing the word "STOP," or a flashing red signal indication, said sign or signal having apart from these rules and regulations, the written approval of the Department of Public Works, Commonwealth of Massachusetts, and such approval being in effect, shall, before proceeding through the intersection, bring such vehicle, railway car or other conveyance to a complete stop at such point as may be clearly marked by a sign or line, or, if a point is not so marked, then at a place between the said stop sign, or signal, and the nearer line of the street intersection. In the case of a line of two (2) or more vehicles approaching such "STOP" sign or flashing red signal indication, the drivers of the second and third vehicles in line in any group shall not be required to stop more than once before proceeding through the intersection. This section shall not apply when traffic is otherwise directed by an officer or by lawful traffic regulating sign, signal or device.

ARTICLE VIII.

[ACCIDENT REPORTS, RESPONSIBILITY, PENALTIES & REPEALS]

Sec. 1-76. Drivers must report accidents.

The driver of any vehicle involved in an accident resulting in the injury or death of any person or property damage to an apparent total extent of twenty-five dollars ($25.00) or more shall within twenty-four (24) hours make a full and complete report in writing of such accident to the police headquarters in this city. A driver who has been incapacitated as a result of such accident, and to such an extent reporting impossible or unfavorable to his recovery, shall not be required to report such accident until he has recovered sufficiently to be able to do so. The report shall be made on a form furnished by the police department, copies of which shall be available at the police station. Compliance with this section, however, shall not relieve such driver from the additional responsibility of reporting to the registrar of motor vehicles any accident in which a person is killed or injured.

Editor's note--The provisions of chapter 90, section 26 of the General Laws now supersedes the provisions of this section. Chapter 90, section 26 of the General Laws is set out below in its entirety:

Every person operating a motor vehicle which is in any manner involved in an accident in which any person is killed or injured or in which there is damage in excess of two hundred (200) dollars or other property shall within five (5) days after such accident report in writing to the registrar on a form approved by him and send a copy thereof to the police department having jurisdiction over the place on the way where such accident occurred. Such report shall not be required during the period of incapacity of any person who is physically incapable of making a report. If the operator is not the owner of the vehicle and is physically incapable of making such written report, the owner shall within five (5) days after the accident make such report based on such knowledge as he may have and such information as he can obtain regarding the accident.

The registrar may require any such operator or owner to file a supplementary written report whenever in the opinion of the registrar the original report is insufficient.

The registrar may revoke or suspend the license of any person violating any provision of this section.
Sec. 1-77. Penalties.

a. Any person violating any provision of any rule, regulation or order regulating the parking of motor vehicles made by anybody authorized to make the same shall be dealt with as provided in Section 20 A of Chapter 90 of the General Laws, (Ter. Any person convicted of a violation of any rule, regulation or order made hereunder, except as otherwise provided, shall be punished by a fine not exceeding fifty dollars ($50.00) for each offense. (By-law of 3-27-72; amended by City Council 9-16-03; approved by Mayor 9-17-03).

ARTICLE IX. PEDESTRIAN CONTROL REGULATION*

Sec. 1-79. Pedestrians crossing ways or roadways.

Pedestrians shall obey the direction of police officers directing traffic and whenever there is an officer directing traffic, a traffic-control signal or a marked crosswalk within three-hundred (300) feet of a pedestrian; no such pedestrian shall cross a way or roadway except within the limits of a marked crosswalk and as hereinafter provided in these regulations. For the purpose of these regulations, a marked crosswalk shall only be construed to be that area of a roadway reserved for pedestrian crossing located between two (2) solid white reflectorized twelve-inch pavement markings in rural areas or markings not less than six (6) inches wide in urban areas, said markings or lines being no less than six (6) feet apart. (Traffic Rules/Orders, 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

*Editor's note - The traffic regulation passed July 25, 1979 and approved by Permit No. B-117, has been codified herein as Article IX of Appendix A, at the discretion of the editor.

Sec. 1-80. Pedestrian actuation.

(a) At a traffic control signal location where pedestrian indications are provided but which are shown only upon actuation by means of a pedestrian push button, no pedestrian shall cross a roadway unless or until the pedestrian control signal push button has been actuated and then cross only on the proper pedestrian signal indication. At traffic-control signal locations where no pedestrian indication is provided, pedestrians shall cross only on the green indication. If necessary, the green indication shall be actuated by the pedestrian by means of a push button.

(b) At a traffic-control signal location, pedestrians shall yield the right-of-way to vehicles of a funeral or other procession or authorized emergency vehicle while in performance of emergency duties regardless of the signal indication given, and they shall not attempt to cross the roadway until such vehicles or procession has passed at which time pedestrians shall than cross the roadway only as provided in these regulations.

(Traffic Rules/Orders, 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

Sec. 1-81. Pedestrian obedience to traffic control signals.

Traffic-control signal color indications and legends shall have the commands ascribed to them in this section and no other meanings, and every pedestrian shall comply therewith, except when otherwise directed by an officer.

(a) Red and yellow or the word "Walk": Whenever the red and yellow lenses are illuminated together or the single word "Walk" is illuminated, pedestrians facing such indication may proceed across the roadway and in the direction of such signal only.
(b) **Red alone or "Don't Walk":** Whenever the words "Don't Walk" or any indication other than red and yellow shown together are illuminated in a traffic-control signal where pedestrian indications are provided, pedestrians approaching or facing such indication shall wait on the sidewalk, edge of roadway or in the pedestrian refuge area of a traffic island and shall not enter upon or cross a roadway until the proper indication is illuminated in the traffic control signal, but any pedestrian who has partially completed his crossing on the walk indication shall proceed or return to the nearest sidewalk or safety island on the yellow indication, the red indication or when the words "Don't Walk" are illuminated by rapid intermittent flashes.

(c) **Green alone:** At traffic-control signal locations where no pedestrian indication is given or provided, pedestrians facing the signal may proceed across the roadway within any marked crosswalk in the direction of the green indication.

(d) **Yellow alone, red alone or flashing "Don't Walk":** Pedestrians approaching or facing a yellow, red or flashing "Don't Walk" illuminated indication shall not start to cross a roadway.

(e) **Flashing red, yellow or green:** At any traffic control signal location where a flashing red, flashing yellow or flashing green indication is being given facing a crosswalk, pedestrians shall actuate, where provided, the pedestrian signal indication and cross the roadway only on the red-yellow or "Walk" indication when such indication is in operation. If no pedestrian signal is provided, pedestrians shall cross within crosswalks with due care.

(Traffic Rules/Orders 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

**Sec. 1-82. Pedestrian crossings and use of roadways.**

(a) No pedestrian shall suddenly leave a sidewalk or safety island and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield the right-of-way.

(b) Pedestrians shall at all times attempt to cross a roadway using the right half of crosswalks.

(c) Where sidewalks are provided, it shall be unlawful for any pedestrian to walk along and upon an adjacent roadway whenever the sidewalk is open to pedestrian use.

(d) Where sidewalks are not provided, any pedestrian walking along and upon a highway shall, when practicable, walk only on the left side of the roadway on its unfinished shoulder facing traffic which may approach from the opposite direction.

(e) Persons alighting from the roadway side of any vehicle parked at the curb or edge of roadway shall proceed immediately to the sidewalk or edge of roadway adjacent to vehicle, and shall cross the roadway only as authorized by these regulations.

(f) It shall be unlawful for any person to actuate a pedestrian control signal or to enter a marked crosswalk unless a crossing of the roadway is intended.

(Traffic Rules/Orders, 7-25-79, Appvd. by Permit No. B-117, 8-7-79)
Sec. 1-83. Crossing at non-signalized locations.

Every pedestrian crossing a roadway at any point other than within a marked crosswalk shall yield the right-of-way to all vehicles upon the roadway. (Traffic Rules/Orders, 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

Sec. 1-84. Operators to exercise due care.

Furthermore, notwithstanding the provisions of these regulations, every operator of a vehicle shall exercise due care to avoid colliding with any pedestrian upon the roadway and shall give warning by sounding the horn when necessary and shall exercise proper precautions which may become necessary for safe operation. (Traffic Rules/Orders, 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

Sec. 1-85. Pedestrians soliciting rides or business.

No person shall stand in a roadway for the purpose of soliciting a ride, employment or business from the operator or occupant of any vehicle without the written permission of the board or officer having control of such roadway or highway. (Traffic Rules/Orders, 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

Sec. 1-86. Exemptions.

The provisions of these Rules and Regulations governing the use of ways by pedestrians shall not apply to pedestrians actually engaged in work upon a roadway closed to travel or under construction or repair, to municipal, state, federal or public service corporation employees while in the performance of their duties, to officers engaged in the performance of their public duties or to pedestrians acting in an emergency when such emergency necessitates departure from any part of these Rules and Regulations. (Traffic Rules/Orders 7-25-79, Appvd. by Permit No. B-117, 8-7-79)

Sec. 1-87. Penalties.

Any person who violates the provisions of this article which deal with the proper use of ways by pedestrians shall be punished as provided in Chapter 90, Section 18A of the General Laws (Ter. Ed.). Any person convicted of a violation of any other provisions of these regulations relative to the operation of vehicles shall be punished by a fine not exceeding twenty dollars ($20.00) for each offense.
