

Memorandum of Understanding
Between the
Easthampton Public School District
and the
Easthampton Police Department

This agreement (the “Agreement”) is made by and between the Easthampton Public School District (the “District”) and the Easthampton Police Department (the “Police Department”) (collectively, the “Parties”). The Chief of Police of the Police Department (the “Chief”) and the Superintendent of the District (“the Superintendent”) are each a signatory to this Agreement. The provisions of this Agreement in **bold typeface** are specifically required by law under G. L. c. 71, § 37P.

I. Purpose

The purpose of this Agreement is to formalize and clarify the partnership between the District and the Police Department to implement a School Resource Officer (“SRO”) program (the “Program”) in order to promote school safety; help maintain a positive school climate for all students, families, and staff; enhance cultural understanding between students and law enforcement; promote school participation and completion by students; facilitate appropriate information-sharing; and inform the Parties’ collaborative relationship to best serve the school community.

This memorandum is not intended to, does not, and may not be relied upon to create any rights, substantive or procedural, enforceable by any person in any civil or criminal matter.

II. Mission Statement, Goals, and Objectives

The mission of the Program is to support and foster the safe and healthy development of all students in the District through strategic and appropriate use of law enforcement resources and with the mutual understanding that school participation and completion is indispensable to achieving positive outcomes for youth and public safety.

The Parties are guided by the following goals and objectives (the “Goals and Objectives”):

- To foster a safe and supportive school environment that allows all students to learn and flourish regardless of race, religion, national origin, immigration status, gender, disability, sexual orientation, gender identity, and socioeconomic status;
- To promote a strong partnership and lines of communication between school and police personnel and clearly delineate their roles and responsibilities;
- To establish a framework for principled conversation and decision-making by school and police personnel regarding student misbehavior and students in need of services;
- To ensure that school personnel and SROs have clearly defined roles in responding to student misbehavior and that school administrators are responsible for code of conduct and routine disciplinary violations;

- To minimize the number of students unnecessarily out of the classroom, arrested at school, or court-involved;
- To encourage relationship-building by the SRO such that students and community members see the SRO as a facilitator of needed supports as well as a source of protection;
- To provide requirements and guidance for training including SRO training required by law and consistent with best practices, and training for school personnel as to when it is appropriate to request SRO intervention;
- To outline processes for initiatives that involve the SRO and school personnel, such as violence prevention and intervention and emergency management planning; and
- To offer presentations and programming to the school focusing on criminal justice issues, community and relationship building, and prevention, health, and safety topics.

III. Structure and Governance

The Parties acknowledge the importance of clear structures and governance for the Program. The Parties agree that communicating these structures to the school community, including teachers and other school staff, students, and families, is important to the success of the Program.

A. Process for Selecting SRO

The Parties acknowledge that the selection of the SRO is a critical aspect of the Program and that it is important for the Parties and the school community to have a positive perception of and relationship with the SRO.

In accordance with state law, the Chief shall assign an officer whom the Chief believes would foster an optimal learning environment and educational community and shall give preference to officers who demonstrate the requisite personality and character to work in a school environment with children and educators and who have received specialized training in child and adolescent cognitive development, de-escalation techniques, and alternatives to arrest and diversion strategies. The Chief shall work collaboratively with the Superintendent in identifying officers who meet these criteria and in selecting the officer who is ultimately assigned as the SRO.

The Chief shall consider the following additional factors in the selection of the SRO:

- Proven experience working effectively with youth;
- Demonstrated ability to work successfully with a population that has a similar racial and ethnic makeup and language background as those prevalent in the student body, as well as with persons who have physical and mental disabilities;
- Demonstrated commitment to making students and school community members of all backgrounds feel welcomed and respected;
- Demonstrated commitment to de-escalation, diversion, and/or restorative justice, and an understanding of crime prevention, problem-solving, and community policing in a school setting;
- Knowledge of school-based legal issues (e.g., confidentiality, consent), and demonstrated commitment to protecting students' legal and civil rights;

- Knowledge of school safety planning and technology;
- Demonstrated commitment and ability to engage in outreach to the community;
- Knowledge of school and community resources;
- A record of good judgment and applied discretion, including an absence of validated complaints and lawsuits; and
- Public speaking and teaching skills.

In endeavoring to assign an SRO who is compatible with the school community, the Chief shall receive and consider input gathered by the Superintendent from the school principals and representative groups of teachers, parents, and students, in addition to the Superintendent. **In accordance with state law, the Chief shall not assign an SRO based solely on seniority.**

In assigning an SRO, the Chief shall take into account actual or apparent conflicts of interest, including whether an officer is related to a current student at the school to which the officer may be assigned as an SRO. There shall be a preference for an SRO who is not related to any current District student. As part of the application process, officers who are candidates for an SRO position shall be required to notify the Chief about any relationships with current students or staff members or students or staff members who are expected to join the school community (e.g., children who are expected to attend the school in the coming years). Any appointed SRO who is related to a current student, or who has another actual or apparent conflict of interest based on a relationship with any student(s) or staff member(s) (e.g., an SRO who also serves as a coach or advisor), shall be required to notify his/her direct superior at the earliest opportunity if/when any non-emergency issue or incident arises that implicates that actual or apparent conflict of interest. When notified of an actual or apparent conflict of interest, the Police Department will determine the appropriate course of action, including whether to assign another officer to respond, and will advise the SRO and the District accordingly. Nothing in this paragraph is intended to limit the ability of the SRO to respond to emergency situations.

B. Supervision of SRO and Chain of Command

The SRO shall be a member of the Police Department and report directly to the Detective Sergeant. The SRO shall also be designated as a special employee of the District. To ensure clear and consistent lines of communication, the SRO shall meet at least weekly with the principal of Easthampton High School and at least monthly with other principals and any other school officials identified in Section V.A. The SRO shall ensure that principals remain aware of material interactions and information involving the SRO's work, including, but not limited to, arrests and searches of students' persons and property, consistent with Section V.D.

C. Level and Type of Commitment from Police Department and School District

The salary and benefits of the SRO shall be covered by the Police Department. The costs of the training required by this Agreement and any other training or professional development shall be paid by the District and/or Police Department.

The District shall provide the SRO with a private, appropriately furnished office at Easthampton High School and at the new PK-8 school, which can be secured. This shall include, but is not limited to, a desk with drawers, chairs, and a filing cabinet for files and records that can be properly locked and secured, as well as a telephone and a computer.

D. Integrating the SRO

The Parties acknowledge that proper integration of the SRO can help build trust, relationships, and strong communication among the SRO, students, and school personnel.

The District shall be responsible for ensuring that the SRO is formally introduced to the school community, including students, parents, and staff. The introduction shall include information about the SRO's background and experience, the SRO's role and responsibilities, what situations are appropriate for SRO involvement, and how the SRO and the school community can work together, including how and when the SRO is available for meetings and how and when the school community can submit questions, comments, and constructive feedback about the SRO's work. The introduction for parents shall include information on procedures for communicating with the SRO in languages other than English. The SRO shall also initiate communications with students and teachers to learn their perceptions regarding the climate of their school.

The SRO shall regularly be invited to and attend staff meetings, assemblies, and other school convenings. The SRO shall also be invited to participate in educational and instructional activities, such as instruction on topics relevant to criminal justice and public safety issues. If the District has access to a student rights training through a community partner or the District Attorney's Office, the school shall consider offering such a training to students, where practicable, at the start of each school year. The SRO shall make reasonable efforts to attend such training. The SRO shall not be utilized for support staffing, such as hall monitor, substitute teacher, or cafeteria duty.

The Parties acknowledge that the SRO may benefit from knowledge of accommodations or approaches that are required for students with mental health, behavioral, or emotional concerns who have an individualized education program ("IEP") under the Individuals with Disabilities Education Act or a plan under Section 504 of the Rehabilitation Act ("504 Plan"). School personnel shall notify parents or guardians of such students of the opportunity to offer the SRO access to the portions of the IEP document or 504 Plan that address these accommodations or approaches. It is within the sole discretion of the parents or guardians to decide whether to permit the SRO to review such documents. If a parent or guardian provides such permission, the SRO shall make reasonable efforts to review the documents. Whenever possible, the school shall make available a staff member who can assist the SRO in understanding such documents.

The SRO shall participate in any District and school-based emergency management planning. The SRO shall also participate in the work of any school threat assessment team to the extent any information sharing is consistent with obligations imposed by the

Family Educational Rights and Privacy Act (“FERPA”) (20 U.S.C. § 1232g) (see further information in Section V).

E. Complaint Resolution Process

The Parties shall develop and implement a simple and objective complaint resolution system for all members of the school community to register concerns that may arise with respect to the SRO or the Program. The system shall comply with Police Department policies and shall provide for timely communication of the resolution of the complaint to the complainant. The system shall also allow parents and guardians to submit complaints in their preferred language and in a confidential manner that protects the identity of the complainant from the SRO consistent with the SRO’s due process rights and any applicable employment protections.

All students, parents, guardians, teachers, and administrators shall be informed of the complaint resolution system and procedures at the beginning of each school year.

The Parties shall develop and implement a system that allows for the SRO and other Police Department officers to register concerns, including concerns about misconduct by teachers or administrators, that may arise with respect to the Program.

F. Annual Review of the SRO and the SRO Program

In accordance with state law, the Chief and the Superintendent shall annually review the performance of the SRO and the success and effectiveness of the Program in meeting the Goals and Objectives. The review shall be conducted at the end of each school year in a meeting among the SRO, the Chief, and the Superintendent. A copy of the review shall be supplied to each attendee.

The Chief and Superintendent shall jointly develop and agree in advance on the metrics for measuring the SRO’s performance and the success and effectiveness of the Program. The review shall include measures that reward the SRO’s performance, subject to the terms of any applicable collective bargaining agreements, for compliance with the terms of this Agreement and the SRO’s contributions to achieving the mission, purpose, goals, and objectives as set forth in Sections I and II. The review shall consider SRO efforts to prevent unnecessary student arrests, citations, court referrals, and other use of police authority. The review shall also assess the extent of the SRO’s positive interactions with students, families, and staff and the SRO’s participation in collaborative approaches to problem-solving, prevention, and de-escalation.

The Chief and Superintendent shall provide a mechanism for receiving feedback from the school community, including principal(s), teachers, students, and families of the school(s) to which the SRO is assigned. The Chief shall seriously consider any such feedback and shall make a good faith effort to address any concerns raised; however, the final selection and assignment of the SRO shall be within the sole discretion of the Chief. If the

Superintendent recommends that the SRO not be assigned to a specific school, the Chief shall provide an explanation of any decision to maintain the SRO's assignment.

IV. Roles and Responsibilities of the SRO and School Administrators and Staff in Student Misbehavior

The Parties agree that school officials and the SRO play important and distinct roles in responding to student misbehavior to ensure school safety and promote a positive and supportive learning environment for all students.

Under state law, the SRO shall not serve as a school disciplinarian, as an enforcer of school regulations, or in place of school-based mental health providers, and the SRO shall not use police powers to address traditional school discipline issues, including non-violent disruptive behavior.

Principals or his or her designee shall be responsible for student code of conduct violations and routine disciplinary violations. The SRO shall be responsible for investigating and responding to criminal misconduct. The Parties acknowledge that many acts of student misbehavior that may contain all the necessary elements of a criminal offense are best handled through the school's disciplinary process. The SRO shall read and understand the student code of conduct for both the District and the school.

The building principal (or his or her designee) and the SRO shall use their reasoned professional judgment and discretion to determine whether SRO involvement is appropriate for addressing student misbehavior. The building principal (or his or her designee) and the SRO shall follow all relevant District policies concerning police involvement at schools. In such instances, the guiding principle is whether misbehavior rises to the level of criminal conduct that poses (1) real and substantial harm or threat of harm to the physical or psychological well-being of other students, school personnel, or members of the community or (2) real and substantial harm or threat of harm to the property of the school.

In instances of student misbehavior that do not require a law enforcement response, principals or his or her designee shall determine the appropriate disciplinary response. The building principal or his or her designee should prioritize school- or community-based accountability programs and services, such as peer mediation, restorative justice, and mental health resources, whenever possible.

For student misbehavior that requires immediate intervention to maintain safety (whether or not the misbehavior involves criminal conduct), the SRO may act to deescalate the immediate situation and to protect the physical safety of members of the school community. To this end, school personnel may request the presence of the SRO when they have a reasonable fear for their safety or the safety of students or other personnel.

When the SRO or other Police Department employees have opened a criminal investigation, school personnel shall not interfere with such investigation or act as agents of law enforcement. To protect their roles as educators, school personnel shall only assist in a criminal investigation

as witnesses or to otherwise share information consistent with Section V, except in cases of emergency. Nothing in this paragraph shall preclude a building principal or his or her designee from undertaking parallel disciplinary or administrative measures that do not interfere with a criminal investigation.

A student shall only be arrested on school property or at a school-related event as a last resort or when a warrant requires such an arrest. Principals or his or her designee shall be consulted prior to an arrest whenever practicable, and the student's parent or guardian shall be notified as soon as practicable after an arrest. In the event of an investigation by the SRO that leads to custodial questioning of a juvenile student, the SRO shall notify the student's parent or guardian in advance and offer them the opportunity to be present during the interview.

In accordance with state law, the SRO shall not take enforcement action against students for Disturbing a School Assembly (G. L. c. 272, § 40) or for Disorderly Conduct or Disturbing the Peace (G. L. c. 272, § 53) within school buildings, on school grounds, or in the course of school-related events.

It shall be the responsibility of the District to make teachers and other school staff aware of the distinct roles of school administration and SROs in addressing student misbehavior, consistent with this Section and this Agreement, as well as the Standard Operating Procedures accompanying this Agreement and described in Section VIII.

V. Information Sharing Between SROs, School Administrators and Staff, and Other Stakeholders

The Parties acknowledge the benefit of appropriate information sharing for improving the health and safety of students but also the importance of limits on the sharing of certain types of student information by school personnel. The Parties also acknowledge that there is a distinction between student information shared for law enforcement purposes and student information shared to support students and connect them with necessary mental health, community-based, and related services.

A. Points of Contact for Sharing Student Information

In order to facilitate prompt and clear communications, the Parties acknowledge that building principals (or their designees) and the SRO are the primary points of contact for sharing student information in accordance with this Agreement. The Parties also acknowledge that, in some instances, other school officials or Police Department employees may serve as key points of contact for sharing information. Such school officials and Police Department employees are identified below:

Chief
Detective Sergeant
Community Relations Sergeant
Superintendent

Such Police Department employees are considered a part of the District's "Law Enforcement Unit" as defined in the Family Educational Rights and Privacy Act ("FERPA") (20 U.S.C. § 1232g).

B. Compliance with FERPA and Other Confidentiality Requirements

At all times, school officials must comply with FERPA. This federal statute permits disclosures of personally identifiable information about students contained in educational records ("Student PII"), without consent, only under specific circumstances.

When the District "has outsourced institutional services or functions" to the SRO consistent with 34 C.F.R. § 99.31(a)(1)(i)(B) of FERPA, the SRO qualifies as a "school official" who can access, without consent, Student PII contained in education records about which the SRO has a "legitimate educational interest."

Consistent with 34 C.F.R. §§ 99.31(10) and 99.36 of FERPA, the SRO (or other Police Department employee identified in Section V.A.) may gain access, without consent, to Student PII contained in education records "in connection with an emergency if knowledge of the [Student PII] is necessary to protect the health or safety of the student or other individuals."

These are the *only* circumstances in which an SRO may gain access, without consent, to education records containing student PII (such as IEPs, disciplinary documentation created by a school, or work samples).

FERPA does not apply to communications or conversations about what school staff have observed or to information derived from sources other than education records.

In addition to FERPA, the Parties agree to comply with all other state and federal laws and regulations regarding confidentiality, including the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and state student record regulations at 603 C.M.R. 23.00. The Parties agree to collect only that student information necessary and relevant to fulfilling their respective roles, to share such information with each other only where required or allowed under this Agreement, and not to share such information beyond the sharing contemplated in this Agreement unless required to be shared by state or federal law. The Parties shall not collect or share information on a student's immigration status except as required by law.

C. Information Sharing by School Personnel

1. For Law Enforcement Purposes

Where a building principal or his or her designee learns of misconduct by a student for which a law enforcement response may be appropriate (as described in Section IV), he or she should inform the SRO. If a teacher has information related to such

misconduct, he or she may communicate this information directly to the SRO but should also communicate such information to a building principal or his or her designee. The Parties agree that the sharing of such information shall not and should not necessarily require a law enforcement response on the part of the SRO but shall and should instead prompt a careful consideration of whether the misconduct is best addressed by law enforcement action, by a school disciplinary response, or by some combination of the two.

Notwithstanding the foregoing, if student information is obtained solely during a communication with school staff deemed privileged or confidential due to the staff member's professional licensure, such communication shall only be disclosed with proper consent or if the communication is subject to the limits and exceptions to confidentiality and is required to be disclosed (e.g., mandatory reporting, immediate threats of harm to self or others). Additionally, if such student information is gathered as part of a "Verbal Screening Tool for Substance Abuse Disorders," such information shall only be disclosed pursuant to the requirements of G. L. c. 71, § 97.

The Parties acknowledge that there may be circumstances in which parents consent to the disclosure of student information for law enforcement purposes (e.g., as part of a diversion program agreement) and that the sharing of information under such circumstances does not violate this Agreement.

The Parties also acknowledge that, from time to time, an emergency situation may arise that poses a real, substantial, and immediate threat to human safety or to property with the risk of substantial damage. School personnel having knowledge of any such emergency situation should immediately notify or cause to be notified both the Police Department (or the SRO if appropriate to facilitate a response) and the relevant building principal or his or her designee. This requirement is in addition to any procedures outlined in the school's student handbook, administrative manual, and/or School Committee policy manual.

Nothing in this section or this Agreement shall prevent building principals or their designees from reporting possible criminal conduct by a person who is not a student.

2. For Non-Law Enforcement Purposes

Based on their integration as part of the school community, SROs may periodically require access to student information for purposes that fall outside of the SRO's law enforcement role outlined in Section IV.

Student PII received by the SRO (or other Police Department employee identified in Section V.A.) that is not related to criminal conduct risking or causing substantial harm shall not be used to take law enforcement action against a student but may be used to connect a student or family with services or other supports. Prior to such a disclosure, whenever possible, the relevant building principal or his or her designee

shall notify the parent, the student, or both, when such information will be shared with the SRO.

D. Information Sharing by the SRO

Subject to applicable statutes and regulations governing confidentiality, the SRO shall inform the relevant building principal or his or her designee of any arrest of a student, the issuance of a criminal or delinquency complaint application against a student, or a student's voluntary participation in any diversion or restorative justice program if:

- The activity involves criminal conduct that poses a (present or future) threat of harm to the physical or psychological well-being of the student, other students or school personnel, or to school property;
- The making of such a report would facilitate supportive intervention by school personnel on behalf of the student (e.g., because of the Police Department's involvement with a student's family, the student may need or benefit from supportive services in school); or
- The activity involves actual or possible truancy.

The SRO shall provide such information whether the activity takes place in or out of school, consistent with the requirements of G. L. c. 12, § 32 (Community Based Justice information-sharing programs) and G. L. c. 71, § 37H (setting forth potential disciplinary consequences for violations of criminal law).

When the SRO observes or learns of student misconduct in school for which a law enforcement response is appropriate (as described in Section IV), the SRO shall convey to the relevant building principal or his or her designee as soon as reasonably possible the fact of that misconduct and the nature of the intended law enforcement response, and when the SRO observes or learns of student misconduct that does not merit a law enforcement response, but that appears to violate school rules, the SRO shall report the misconduct whenever such reporting would be required for school personnel.

VI. Data Collection and Reporting

In accordance with state law, the SRO and school administrators shall work together to ensure the proper collection and reporting of data on school-based arrests, citations, and court referrals of students, consistent with regulations promulgated by the Department of Elementary and Secondary Education.

In addition to any other data, the District and/or Police Department shall collect and report data concerning school-based arrests, citations, and court referrals sufficient to identify:

- (1) The race and ethnicity of any student arrested, cited, or subject to a court referral;
- (2) Any arrests, citations, or court referrals for non-violent offenses;
- (3) Any arrests, citations, or court referrals for any offense related to bullying or harassment;

- (4) Any arrests, citations, or court referrals for any offense involving indications of bias on the basis of any characteristic protected under Massachusetts General Laws chapter 265, section 39; and
- (5) Any request or direction made by any District employee to the Police Department concerning the arrest, citations, or court referral of any student.

VII. SRO Training

The SRO shall attend the SRO basic training program, which focuses on implementing effective community policing in schools.

The SRO shall also receive ongoing professional development in:

- (1) **child and adolescent development;**
- (2) **conflict resolution;**
- (3) **diversion strategies and programs;**
- (4) **discrimination, bias indicators, and unconscious/implicit bias; and**
- (5) **progressive discipline and restorative justice.**

Additional areas for continuing professional development may include, but are not limited to:

- Implicit bias and disproportionality in school-based arrests based on race and disability
- Cultural competency in religious practices, clothing preferences, identity, and other areas
- Mental health protocols and trauma-informed care
- De-escalation skills and positive behavior interventions and supports
- Training in proper policies, procedures, and techniques for the use of restraint
- Special education law
- Student privacy protections and laws governing the release of student information
- School-specific approaches to topics like bullying prevention, cyber safety, emergency management and crisis response, threat assessment, and social-emotional learning
- Verbal de-escalation techniques;
- Massachusetts Department of Elementary and Secondary Education discipline regulations as well as school discipline policies and codes of conduct;
- Mental health first aid and intervention;
- Prevention resources;
- Resources for youth coping with substance use and or mental health issues;
- Physiology of addiction and issues relating to youth and the opioid crisis;
- Issues relating to students with disabilities, including discipline;
- Legal issues relating to juveniles, including search and seizure, interviewing juveniles, police access to students, confidentiality/privacy issues, and permissible information sharing;
- Teaching and classroom management strategies;
- Children Requiring Assistance process and proceedings in juvenile court;
- Teen dating violence and healthy teen relationships;
- Cyber safety, bullying, and sexting, including conducting investigations;

- Childhood trauma relating to child abuse and neglect and/or domestic violence;
- Understanding and protecting civil rights in schools; and
- How to effectively work with specific student groups such as students with disabilities, students with limited English proficiency, and students who identify as gay, lesbian, bisexual, and/or transgender;

The SRO shall also receive certified basic SRO training on how to mentor and counsel students, work collaboratively with administrators and staff, adhere to ethical standards around interactions with students and others, manage time in a school environment, and comply with juvenile justice and privacy laws, to the extent that such training is available.

The SRO shall attend a minimum of 12 hours of training per year, exclusive of basic SRO training.

Where practicable, the District shall also encourage school administrators working with SROs to undergo training alongside SROs to enhance their understanding of the SRO's role and the issues encountered by the SRO.

VIII. Accompanying Standard Operating Procedures

This Agreement shall be accompanied by Standing Operating Procedures that shall be consistent with this Agreement and any relevant District policy concerning police involvement in schools, and shall include, at a minimum, provisions detailing:

- **The SRO uniform and any other ways of identifying as a police officer;**
- **Duty hours and scheduling for the SRO;**
- **Use of police force, arrest, citation, and court referral on school property;**
- **A statement and description of students' legal rights, including the process for searching and questioning students and when parents and administrators must be notified and present;**
- **The chain of command, including delineating to whom the SRO reports, how often the SRO meets with principals or his or her designee, and how school administrators and the SRO work together, as well as what procedure will be followed when there is a disagreement between the administrator and the SRO;**
- **Protocols for SROs when school administrators, teachers, or other school personnel call upon them to intervene in situations beyond the role prescribed for them in Section IV;**
- **Performance evaluation standards, which shall incorporate monitoring compliance with this Agreement and use of arrest, citation, and police force in school;**
- **Protocols for diverting and referring at-risk students to school- and community-based supports and providers; and**
- **Clear guidelines on confidentiality and information sharing between the SRO, school staff, and parents or guardians.**

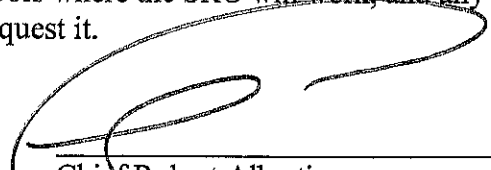

IX. Effective Date, Duration, and Modification of Agreement

This Agreement shall be effective as of the date of signing.

This Agreement shall be reviewed annually prior to the start of the school year. This Agreement remains in full force and effect until amended or until such time as either of the Parties withdraws from this Agreement by delivering written notification to the other Party.

Upon execution of this Agreement by the Parties, a copy of the Agreement shall be placed on file in the offices of the Chief and the Superintendent. The Parties shall also share copies of this Agreement with the SRO, any principals in schools where the SRO will work, and any other individuals whom they deem relevant or who request it.

EASTHAMPTON PUBLIC SCHOOLS
LAW ENFORCEMENT INVOLVEMENT POLICY

I. Mission Statement, Goals, and Objectives

The purpose of this policy is to support and foster the safe and healthy development of all students in the Easthampton Public Schools (hereinafter referred to as the "District") through strategic and appropriate use of law enforcement resources and with the mutual understanding that school participation and completion is indispensable to achieving positive outcomes for youth and public safety.

II. Roles and Responsibilities of the SRO, School Administrators, and Staff in Regard to Student Misbehavior

School officials and the SRO play important and distinct roles in responding to student misbehavior to ensure school safety and promote a positive and supportive learning environment for all students.

Under state law, the SRO shall not serve as a school disciplinarian, as an enforcer of school regulations, or in place of school-based mental health providers, and the SRO shall not use police powers to address traditional school discipline issues, including non-violent disruptive behavior.

Principals or designee shall be responsible for student code of conduct violations and routine disciplinary violations. The SRO shall be responsible for investigating and responding to criminal misconduct. It is acknowledged that many acts of student misbehavior that may contain all the necessary elements of a criminal offense are best handled through the school's disciplinary process instead of the criminal justice process.

Where a principal or designee learns of misconduct by a student for which a law enforcement response may be appropriate, the principal should inform the SRO. If a teacher has information related to such misconduct, the teacher may communicate this information directly to the SRO, but should also communicate such information to a principal or designee. The sharing of such information shall not and should not necessarily require a law enforcement response on the part of the SRO, but shall and should instead prompt a careful consideration of whether the misconduct is best addressed by law enforcement action, by a school disciplinary response, or by some combination of the two.

From time to time, an emergency situation may arise that poses a real, substantial, and immediate threat to human safety or to property with the risk of substantial damage. School personnel, having knowledge of any such emergency situation, should immediately notify or cause to be notified both the Police Department (or the SRO if appropriate to facilitate a response) and the relevant principal or designee. This requirement is in addition to any procedures outlined in the student handbook, administrative manual, and/or School Committee policy manual. Nothing in this section shall prevent principals or their designees from reporting possible criminal conduct by a person who is not a student.

The principal or designee shall use their reasoned professional judgment and discretion to determine whether SRO involvement is appropriate for addressing student misbehavior. The principal or designee shall follow all relevant District policies concerning police involvement at schools. In such instances, the guiding principle is whether misbehavior rises to the level of criminal conduct that poses (1) real and substantial harm or threat of harm to the physical or psychological well-being of other students, school personnel, or members of the community, or (2) real and substantial harm or threat of harm to the property of the school.

In instances of student misbehavior that does not require a law enforcement response, principals or designees shall determine the appropriate disciplinary response in accordance with the Student Handbook procedures. For student misbehavior that requires immediate intervention to maintain safety (whether or not the misbehavior involves criminal conduct), the SRO may act to deescalate the immediate situation and to protect the physical safety of members of the school community. To this end, school personnel may request the presence of the SRO when they have a reasonable fear for their safety, or the safety of students or other personnel.

When the SRO or other Police Department employees have opened a criminal investigation, school personnel shall not interfere with such investigation or act as agents of law enforcement. To protect their roles as educators, school personnel shall only assist in a criminal investigation as witnesses or to otherwise share information, except in cases of emergency. Nothing in this paragraph shall preclude a principal or designee from undertaking parallel disciplinary or administrative measures that do not interfere with a criminal investigation.

The student's parent or guardian shall be notified as soon as practicable after an arrest. In the event of an investigation by the SRO that leads to custodial questioning of a juvenile student, the SRO shall notify the student's parent or guardian in advance and offer them the opportunity to be present during the interview.

It shall be the responsibility of the District to make teachers and other school staff aware of the distinct roles of school administration and SROs in addressing student misbehavior, consistent with the MOU between the District and Easthampton Police Department.

III. Information Sharing

It is important to recognize the benefit of appropriate information sharing for improving the health and safety of students, but also the importance of limits on the sharing of certain types of student information by school personnel. The principals or their designees and the SRO are the primary points of contact for sharing student information in accordance with this Policy. At all times, school officials must comply with FERPA. This federal statute permits disclosures of personally identifiable information about students contained in educational records ("Student PII"), without consent, only under specific circumstances.

Consistent with 34 C.F.R. §§ 99.31(10) and 99.36 of FERPA, the SRO and/or other law enforcement personnel may gain access, without consent, to Student PII contained in education records "in connection with an emergency if knowledge of the [Student PII] is necessary to protect the health or safety of the student or other individuals."

These are the *only* circumstances in which an SRO may be provided access, without consent, to education records containing student PII (such as IEPs, disciplinary documentation created by a school, or work samples). FERPA does not apply to communications or conversations about what school staff have observed or to information derived from sources other than education records.

IV. Data Collection and Reporting

In accordance with state law, the SRO and school administrators shall work together to ensure the proper collection and reporting of data on school-based arrests, citations, and court referrals of students, consistent with regulations promulgated by the Department of Elementary and Secondary Education.

In addition to any other data, the District and/or Police Department shall collect and report data concerning school-based arrests, citations, and court referrals sufficient to identify:

- (1) The race and ethnicity of any student arrested, cited, or subject to a court referral;
- (2) Any arrests, citations, or court referrals for non-violent offenses;
- (3) Any arrests, citations, or court referrals for any offense related to bullying or harassment;
- (4) Any arrests, citations, or court referrals for any offense involving indications of bias on the basis of any characteristic protected under Massachusetts General Laws chapter 265, section 39; and
- (5) Any request or direction made by any District employee to the Police Department concerning the arrest, citations, or court referral of any student.

V. Training

Where practicable, the District shall also encourage school administrators working with SROs to undergo training alongside SROs to enhance their understanding of the SRO's role and the issues encountered by the SRO.
